**PLEASE NOTE:**

There is no time limit to take the Primary STARSkate (Phase 3) course after completing the CanSkate course however, after September 1, 2009; a CanSkate Coach must become certified as a CanSkate Coach if the Primary STARSkate is not completed after two years as a registered Skate Canada coach. This is a new rule recently established by Skate Canada. Information regarding this change and the CanSkate certification process is posted on our web site at [www.skatecanadasaskatchewan.com](http://www.skatecanadasaskatchewan.com)

Coaches at the Primary STARSkate (Phase 3) course will participate in an on-ice lesson evaluation in which they will be assessed by a mentor coach or the Learning Facilitator. After completing the Primary STARSkate course, coaches may begin teaching all Skate Canada programs provided they continue to register with Skate Canada as a coaching member. Their coaching status is Primary STARSkate – Trained. Once a coach has completed the Primary STARSkate course they have up to two years to complete the Level 1 Phase 4 and become Primary STARSkate – Evaluated (Certified). If this time limit can not be met, an extension can be granted. The Saskatchewan Coaching Department can only grant extensions. Information on this process will be discussed at the course.
